

“

*The most impactful, meaningful and comprehensive leadership development programme we have ever had at this company*

CEO, FINANCIAL SERVICES INDUSTRY

# THE LEADERSHIP CUBE

*An integrated approach to leadership development*

Based on our Leadership Cube concept, we have designed a highly effective and integrated approach to leadership development. Through balancing the six sides of the Cube, leaders become increasingly conscious of their own leadership impact while strongly enhancing their strategic acumen at the same time.

Our approach is to build customised Leadership Academies, each of them unique in the way they generate measurable results on individual, team and organisational levels. All our academies have one thing in common: they significantly impact business results through our best practice long-term integrated approach.

*Strategic Leadership designed and delivered a holistic programme with strong involvement of all hierarchies and tangible follow up of impact to business*

CEO, AUTOMOTIVE INDUSTRY

”

*All of my team members have more focus on the right KPIs, resulting in a measurable contribution to strategic targets*

LEADER

”

# A UNIQUE MODEL, A BEST PRACTICE APPROACH

## WHO IS IT FOR?

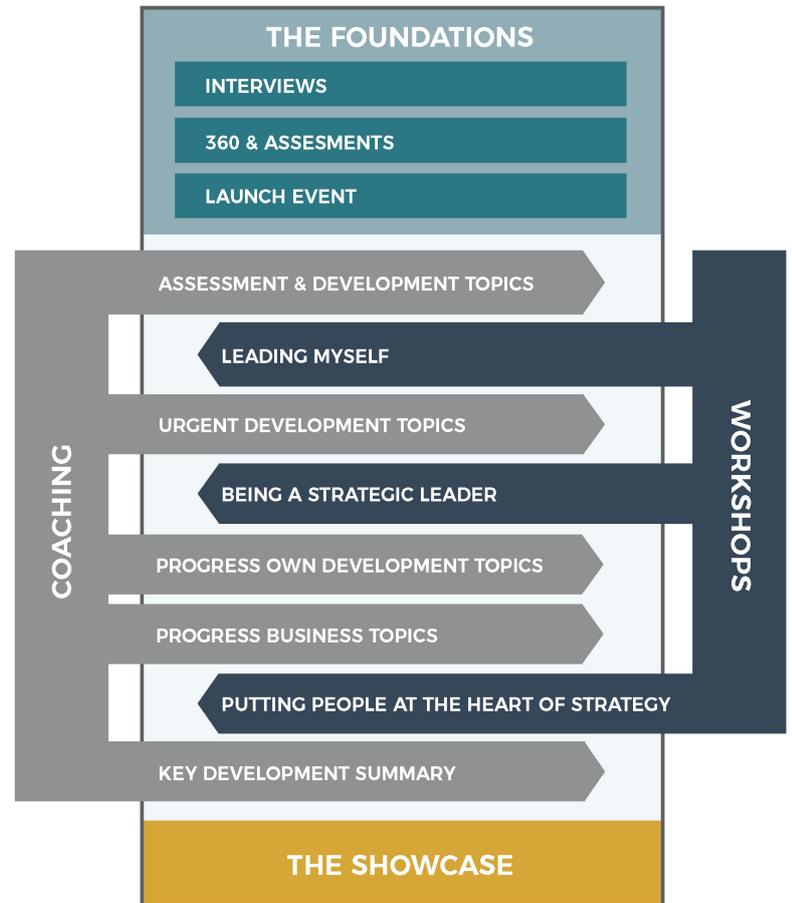

A typical Leadership Cube Academy is designed for managers who play a role in executing strategy and sustaining competitive advantage through a consciously created leadership culture.

## HOW THE CUBE INSPIRED ACADEMIES DELIVER LEADERSHIP DEVELOPMENT

- An analysis of your current business situation leads to a customised Leadership Academy, specifically tailored to your organisation’s strategic needs.
- Themes like strategy, structure, processes and KPIs ensure a strong business focus, while themes such as vision, purpose, team and leadership ensure a strong people focus.
- The process frequently starts at the top with the CEO and their executive team and is then cascaded down throughout the organisation. This creates role-model based momentum.
- The work is based on an integrated selection of methods & tools such as; online surveys, psychometrics, strategic workshops, executive coaching, leadership training sessions, cultural development events or leadership showcases

## THE LEADERSHIP CUBE ACADEMY PROCESS

It is the length and combination of this process that truly delivers results:

“

*The academies drive business improvement, break down silos and generate measurable financial impact*
